

St.Maxens & Company

St.Maxens & Company is a consulting firm that specializes in government affairs and international trade policy developments in Washington and around the world. Founded in 1985, the firm has helped hundreds of clients accomplish their objectives, whether they be targeted projects or ongoing Washington support.

St.Maxens & Company has earned an excellent reputation for providing first-class services in a highly efficient and effective manner. Clients have the peace of mind that comes from working with a smaller firm, where they know the precise individuals who are handling their issues and can be assured of priority treatment.

St.Maxens & Company provides a comprehensive range of services within the field of international trade, and specializes on projects aimed at securing substantial targeted cost savings. The firm analyzes, monitors, and advises on international trade policy and regulatory matters, including tariff and customs matters, bilateral and multilateral trade negotiations, WTO disputes, market access issues, economic sanctions and trade remedy laws. The firm's services in this area include:

lobbying - assisting clients in their representations before the U.S. Congress, the key U.S. trade agencies, and foreign governments;

monitoring - providing *ad hoc* or scheduled reporting on trade policy and regulatory developments critical to the client's specific interests;

negotiations - working with U.S. and foreign negotiators to secure cost-effective results in WTO, bilateral and regional negotiations; and

tariffs - eliminating tariffs on products of particular importance through negotiations, legislation, or GSP petitions.

St.Maxens & Company also assists its clients with the full gamut of government affairs issues beyond the trade arena. Not every company can afford a Washington office, but most companies with international exposure need one. St.Maxens & Company offers a package of Washington-based services that leverage a company's ability to get on top – and stay on top – of crucial federal and international developments.
